

# The South India Textile Research Association

Technical awareness Programme on

## Laboratory Management and Good Laboratory Practices for Testing Laboratories

**Venue :** The South India Textile Research Association(SITRA)

**DATE:** 24.03.2023

**TIME:** 2.30 to 5.00 PM

*The ISO/IEC 17025: 2017 based Laboratory Quality management Systems are applicable to organizations/laboratories performing tests and/or calibrations. The introduction of the Management Systems and good laboratory practices enables efficient and effective working of the laboratory. SITRA, which is in the forefront of offering to constituent units and laboratories various services including training programmes, will be organizing the above awareness programme for the benefit of personnel in testing laboratories aspiring to understand the requirements of ISO/IEC 17025: 2017.*

### Objectives

- To ensure good laboratory practices in testing laboratory
- To understand calibration requirements for testing laboratory
- To train laboratory personnel on the various requirements of testing laboratories as per ISO/IEC 17025: 2017

**Participation certificate  
will be issued**

### Scope of Training :

The training programme aims to,

- Establish competency enhancement of personnel as required to meet ISO/IEC 17025:2017 requirements
- Update the skill and knowledge of testing personnel towards continual improvement
- Train lab personnel to provide technically valid results as per the requirements of the customer
- Highlight the importance of calibration requirement for laboratory
- Enlighten participants on good laboratory practices through presentations and group discussions

**No Registration  
fee**

**Who can participate :** Personnel working in testing laboratories, quality control departments, etc.
